

Jane Frankland

Tech Entrepreneur & Women's Change Agent

"Ready to transform mediocre results & work on something incredible together"

Jane Frankland is a tech entrepreneur, author, speaker and women's change agent. I'm also an unshakable optimist, environmentalist and pacifist, who wants to see our planet thrive. I believe the world will only be safer, happier and more prosperous when there are more women in male dominated fields, like cyber. That's why I work with women and businesses who value them and am on a mission to make women standard in cyber, not exception.

TOPICS:

- Cyber Security
- Women in Business
- Personal Branding & Influence
- Modern Marketing & Social Media
- Leadership and Performance
- Talent Attraction and Team Building
- Confidence and the Imposter Syndrome
- Resilience and Overcoming Adversity

IN DETAIL:

Jane has over twenty years' worth of experience in cyber security, has built and sold her own global penetration testing firm and held executive positions at renowned consultancies. Over the years she has launched, created and been actively involved in numerous accreditation organisations, forums and schemes. She is currently a Board Advisor for the BlackHat Executive Summit, an Editorial Board Advisor for SC Media UK, and a judge for the SC Awards UK and The Business Book Awards. She authors many articles, is regularly featured in industry and iconic British media.

WHAT SHE OFFERS YOU:

Jane is an authority on attracting and retaining women in cyber security. When it comes to tech, Jane has of experience few can match. Bringing people together so they gain common ground understanding and win-win solutions.

LANGUAGES:

She presents in English.

PUBLICATIONS:

2017 InSecurity: Why a Failure to Attract and Retain Women in Cybersecurity is Making Us All Less Safe

2016 Podcast: Women in Cybersecurity

HOW SHE PRESENTS:
